ABOUT ME

Hi, I'm Krystian and since 2019 I have been professionally developing web applications. My analytical approach and passion for new technologies translate into successful implementations of innovative solutions that meet and exceed client expectations. I am convinced that the key to success is transforming complex requirements into a simple, elegant form that brings value to both users and business. I am enthusiastic and eager to support the implementation of projects that will benefit and satisfy both you and the users of your applications.

WORK EXPERIENCE

Fabrity Sp. z o.o.   05.2023 - PRESENT
